Agile Team Charter

1. Team Purpose & Vision

Why do we exist as a team?

- **Team mission:**
  We are trying to create a business platform for students to advertise and conduct their business and to help improve their business.
- **Success definition:**
  We would know we succeeded when our flatform is trending and when a lot of people is using it to use the service and buy products or put their business on our web app
- **Product / Service:**
  Our aim is to create a business platform for students with business to advertise and conduct their business. We provide a service to help store their information and help with their transactions

---

2. Team Members & Roles

Who is on the team and how do we contribute?

Name	Role	Key Responsibilities
Tshephiso	Product Owner	• Manage our product backlog • Create priority lists to do for the project • Create a marketing strategy
Tim	Scrum Master	• Organizes and leads the team • Development of the team's progress • Protect the team from problems • Coaching and mentoring
Siphokuhle	Developer / Analyst / Tester	• Responsible of the coding of the project • Breakdown and estimation of all tasks • Deployment of the project
Matinisa	Developer / Analyst / Tester	• Responsible for requirements of the project • Strategies Test Design and cases • Create tests for the project • Log and track defects in the system
Andani	Developer / Analyst / Tester	• Sprints and backlogs support • Data discovery and exploration • Data validation and quality • Data analysis and updates

---

3. Ways of Working

How we work together day to day

3.1 Agile Framework

- ☐ Kanban – Trello tool
- ☐ Microsoft Word
- ☐ IDEs
- ☐ Notebooks

3.2 Ceremonies

Ceremony	Frequency	Purpose
Daily Stand-up	Roll Call	Preparation to work
Planning	Creating Schedules	Keep the team on the same page
Review / Demo	Feedback Documents	To see if there are improvements in our work
Retrospective	Logbooks	To see if all tasks were completed

---

4. Working Agreements

Rules we agree to follow as a team

- We show up prepared and on time
- We respect timeboxes
- We give constructive feedback
- We raise blockers early
- We commit to continuous improvement
- We make sure everyone is aware about all issues and problems
- We should all stick to the schedule agreed upon
- We should all use the same programs to work on our project
- We need to be available for the weekly meetings
- We need to be flexible and complex for any changes that happens

Add or remove agreements as needed.

---

5. Communication

How and when we communicate

- **Primary channels:**

  - Microsoft Teams = We can have schedule meetings every week to discuss the progress and talk about any agendas that come up.
  - WhatsApp = A group chat can be created to let any member send a message to ask a question or state something the team should know. We could also send each other individual messages if need be.
  - Outlook = Outlook could be used to send emails of our plans, schedules or scripts of the meetings we have and basically send details of our work.

- **Response-time expectations:**

  - Weekly meetings between 9am – 5pm for 90mins which are Urgent
  - Scheduled meetings between 9am – 5pm for 30mins which are not non-urgent
  - WhatsApp group messages within 24hrs, which are not non-urgent.
  - WhatsApp individual messages within 2hrs - 4hrs which are Urgent.
  - Outlook emails within 2hrs - 4hrs which are Urgent.

- **Remote / hybrid norms:**

  - Camera = Doesn’t need to be working because the focus is on the work
  - Microphone = needs to be working to be able to talk to each other during the meetings we have.
  - Internet = Need to be always connected to be available for communication purpose or work to be done.
  - Programs = All programs need to be working to be able to communicate and to do the work.

---

6. Decision-Making

How decisions are made

- ☐ Consensus
- ☐ Product Owner final decision
- ☐ Team vote
- ☐ Agile Lead decides after input
- ☐ Client's approval
- ☐ Product requirements
- ☐ When we in certain situations
- ☐ When competing with our competitors

Escalation path if we're stuck:

---

7. Definition of Done (DoD)

When is work really "done"?

Example:

- Code completed and reviewed
- Tests passed
- Documentation updated
- Product Owner acceptance
- Deployed to agreed environment
- When our business is running.
- When we can help our clients.
- When our services are given.
- When our client's business is available on our web app
- When our clients are satisfied with our support.

---

8. Core Values & Behaviours

How we treat each other

- Respect = We need to make sure there is an understanding in the team and make sure that everyone's view of decisions is considered.
- Transparency = We need to make sure that our decisions and wat we say are very clear to each other, so we don't misunderstand each other
- Accountability = We need to also take responsibility for our actions and everything we say
- Trust = We need to have trust in our team to help the team spirit and create a strong working environment.
- Learning mindset = We need to always come wit a mindset to understand the work we put in and to learn from it and to become better.
- Honor = Always try to put in as much team effort as possible to show your team that we want to be successful, and we are motivated to work together.
- Dignity = Always put your best effort and make sure you understand problems when it comes.
- Professionalism = When we are working, we need to show that our mind is fully focused on the work and we are doing the best we can to show how good we are
- Lawfulness = We need to make sure our work is done the right way and legal.
- Mindful of each other's health = the work we doing can be very frustrating and stressful, so we need to be considered with people's health.

---

9. Risks & Constraints

What could impact our success?

Known risks:

- Equipment damages,
- System crashes
- Delays processes
- Unexpected costs
- Stock Increases

Dependencies:

- Internet,
- Equipment,
- Database Software
- Application Programs
- Transport

Constraints (time, budget, tools, skills):

- Not completing our work in time would have a negative impact on us.
- Not creatin an accurate budget can affect us negatively in the future.
- Working with different program can take longer than usual to get the work done
- We should all be well skilled and familiarised with the programs we use so that everyone can work on the same pace.
- The opinions of our clients could also influence us
- The Environment also has an impact on our work that can also have a result to our success

---

10. Review & Improvement

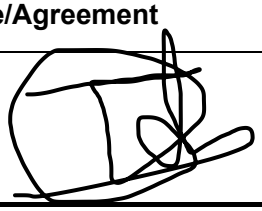

Keeping the charter alive

- Charter reviewed every:
  ☐ Quarter ☐ Release ☐ Retrospective
- Meetings to get Feedback
- Health check in the team
- Team meetings for any changes to be made
- Last updated: _____

11. Team Commitment

Our agreement to this charter

By working on this team, we commit to the principles and agreements outlined above.
